Company Profile

Baillie Lodges is an intimate collection of premium contemporary accommodation experiences in locations of natural or cultural significance that appeal to discerning global travellers. Founded in 2003 by James Baillie, founding Managing Director, P&O Australian Resorts and Hayley Baillie whose wealth of experience extends from many years aboard the world's best expedition ships, this innovative venture aims to set new benchmarks for premium experiential travel in a unique Australian style.

In March 2008 the world-class **Southern Ocean Lodge** on **Kangaroo Island** opened as Australia's first true luxury wilderness lodge. The dramatic coastal national park location, architectural integrity, locally influenced cuisine and personalised interpretive adventures will ensure this new entrant immediate success as an international destination of choice.

Capella Lodge on World Heritage listed **Lord Howe Island** was the first property in this exciting boutique portfolio. One of the world's most spectacular pacific islands, lying only 300 miles off the New South Wales coast, Lord Howe boasts the southern most coral reef system in the world and amazing endemic flora and fauna. The Island showcases world class; diving, sport fishing, bushwalking, beaches and national parks.

Elevated above picturesque Lovers Bay, the property is dramatically shadowed by the famous twin mountains – Gower & Lidgbird. The lodge commands spectacular ocean, lagoon and mountain views and is favoured by discerning guests seeking a more civilized, stylish and sophisticated escape. Contemporary cuisine, personal service and intimate surroundings combine to deliver a unique and exclusive Australian experience. This new lodge is setting the standard for boutique luxury destinations in Australia.

Remarkable Lodge located on **Tasmania's** dramatic Tasman Peninsula is currently in pre-development planning.

The collection also includes a stunning private retreat – **Bedarra Beach House** – on exclusive **Bedarra Island**.
